?????????

Wireless charger 15W of circular shape. With charging surface in recycled material from milk cartons, and base made of bamboo, compatible with devices equipped with Qi wireless charging technology. Type C charger cable included, with logo recycled milk cartons in charging station. Non-slip bamboo base. Instructions manual in English and Spanish. Milk cartons are mostly made of cardboard and aluminum. During the recycling process, the different packaging materials are separated for reuse and re-purposing, thus contributing to the infinite path of the circular economy. This material is well known for its high recyclability, as well as for its lightweight and resistance. Materials such as bamboo encourage the use of natural raw materials, reducing pollutant emissions. It comes from a highly resistant and versatile plant with rapid growth and regeneration, making of it an excellent alternative to traditional wood. Manufactured according to RoHS standards and in compliance with the

following safety requirements: Overheating protection system. Over-charge protection system. Blocking system to prevent short circuits.
