?????????

Original Bluetooth® speaker with compact size and 3W of power. Made of eco-friendly materials, combining a resistant recycled aluminium body and a bamboo grille. 300mAh lithium battery, rechargeable via Type C cable (included). With ON/OFF button and LED charging status light. With Recycled Aluminium logo and lanyard for easy carrying. Presented in an individual box of kraft design, with instruction manual in English and Spanish. Recycled Aluminium is a material with almost infinite recycling possibilities, keeping its original properties and consuming less energy during this process. GRS Certification (Global Recycled Standard), which guarantees the recycled origin of the material used to manufacture the product. Materials such as bamboo encourage the use of natural raw materials, reducing pollutant emissions. It comes from a highly resistant and versatile plant with rapid growth and regeneration, making of it an excellent alternative to traditional wood. Manufactured
